What is ResearcherID?

ResearcherID provides a solution to the author ambiguity problem within the scholarly research community. Each member is assigned a unique identifier to enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification. In addition, your ResearcherID information integrates with the *Web of Science* and is ORCID compliant, allowing you to claim and showcase your publications from a single one account. Search the registry to find collaborators, review publication lists and explore how research is used around the world!

ORCID

Did you know you can associate your ORCID ID with your ResearcherID account?

I would like to create an ORCID record. The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission, etc.

I already have an ORCID record. By creating an ORCID you will be able to link your ResearcherID account with this centralized registry.

No, thank you. Learn more about [ORCID](#). If you choose not to get or associate an ORCID, you can do it at a later time.

Use this list to display all the publications that you have authored.

Adding Publications to this list

You can add publications by searching *Web of Science*[™], searching *Web of Science*[™] *Core Collection*, using *EndNote*[™], or uploading a file. To add publications, click the **Add** link located in the menu on the left-hand side of your screen, or by clicking on the **Add Publications** above.

* Note: Access to *Web of Science* and *Web of Science Core Collection* are based on the entitlements of the computer where you are accessing ResearcherID.

Please remember to only add publications that you have authored to this list. This list will be used by *Web of Science Core Collection* to create a Distinct Author Set, which is a set of papers that will be associated with your name, and your ResearcherID number will be displayed on the *Web of Science Core Collection* record. This allows *Web of Science Core Collection* users who find one of your papers on this list to find all of the other papers on this list.

Making the list public or private

You have the ability to make your "My Publications" public or private. If public, then visitors of ResearcherID can see your scholarly output, and your list will be sent to the *Web of Science* ([click here for more information](#)). Click on the **Manage Profile** button at the top-right corner of the page and select the Publication Lists tab to change the privacy settings of your data.

[More information](#)

Чаще всего система автоматически не присоединяет Ваши публикации в изданиях, индексируемых в *Web of Science* к Вашему профилю, поэтому Вам необходимо это сделать вручную. Для этого нужно нажать "Add Publication"

Система предложит Вам несколько вариантов добавления Ваших статей. Первый способ – поиск Вами Вашей публикации в Web of Science вручную, второй способ – выгрузка из программы EndNote, третий способ – импорт публикации в библиотечном формате. Последние два способа рассчитаны на продвинутых пользователей и в настоящем руководстве не будут рассмотрены. Далее будет описан самый простой и доступный первый способ.

To add publications to your Publication List, select one of the options below by clicking a link.

Note: Depending on your permission to access *Web of Science™* and *Web of Science™ Core Collection*, you will have one or more of the following options:

Option 1:

WEB OF SCIENCE™

Search Web of Science

Use this option to search *Web of Science*. Depending on your subscription, this can include articles, books, patents, and more.

Search Web of Science Core Collection

Use this option to search *Web of Science Core Collection*. Depending on your subscription, this includes the world's leading scholarly literature in the sciences, social sciences, arts, and humanities and proceedings of international conferences, symposia, seminars, colloquia, workshops, and conventions.

Search Web of Science Core Collection Distinct Author Sets

Use this option to search *Web of Science Core Collection* for sets of articles written by the same person.

Option 2:

ENDNOTE™

Go to EndNote

Use your EndNote account to add articles and manage your ResearcherID publication lists.

Already use EndNote? You can transfer your ResearcherID publication lists between the desktop and web effortlessly. Learn about the additional features available in EndNote to accelerate your research including find full text automatically and access to over 3,700 publishing styles.

Search Online Resources using EndNote

With EndNote, you can collect references from online resources including PubMed and more.

- [Help/Tutorials](#)
- [Learn more at EndNote.com](#)

Option 3:

Upload RIS file.

Upload an RIS file (from EndNote, RefMan or other reference software)

You can upload an RIS formatted text file. The RIS file format is a tagged format for expressing bibliographic citations.

Нажав на Search Web of Science, Вы попадёте на страницу поиска своей публикации. Для этого можно указать некоторые параметры, чтобы упростить поиск, например Вашу фамилию и год публикации

После того, как Вы найдёте все Ваши публикации в системе Web of Science и добавите в свой профиль, нужно перейти к своей странице, нажав Get to My Researcher Profile.

Далее для получения информации о цитировании Ваших статей необходимо зайти в Citation Metrics

Именно эту страницу Вам необходимо распечатать и предоставить среди прочих документов в Учёный совет факультета психологии. Основной показатель здесь – Sum of the Times Cited – сколько раз Вас процитировали другие авторы и h-Index – индекс Хирша, рассчитанный по данным Web of Science

Заключительные положения

1. Каждый сотрудник должен постоянно обновлять свой профиль на портале Reseracherid.com аналогично тому, как это происходит в «ИСТИНе».
2. Следует помнить, что не все Ваши публикации индексируются в Web of Science. Индикатором индексации может служить красная звёздочка напротив Вашей публикации в «ИСТИНе» или глобус.
3. Если у Вас возникают вопросы по поиску Вашей статей в системе Web of Science, то Вы можете обратиться к ответственному за пользование «ИСТИНой» по ВАШЕМУ ПОДРАЗДЕЛЕНИЮ (кафедре, лаборатории).
